

Lehlohonolo Jairus Shole

Technical Lead and Senior Full-Stack Developer

Pragmatic software developer with a passion for building enterprise-grade solutions.

Professional Profile

I am a self-taught software developer who discovered a deep interest in IT while studying Electrical Engineering at the University of Johannesburg. Since then I have built my career around the craft of software development and a constant commitment to learning new technologies.

My path into software development was not linear. I began in engineering, taught myself modern application development, and kept pushing toward more complex systems, stronger teams, and harder technical problems.

I enjoy building systems that solve practical business problems. I am strongest in C#, .NET, Angular, relational data, and enterprise application design while staying open to new frameworks and patterns.

Current direction: Shipping enterprise-grade platforms across finance, fleet management, reporting, and full-stack product engineering.

Motto: Don't be good at what you do, be the greatest.

Personal Details

- Surname: Shole
- Name: Lehlohonolo Jairus
- Date of Birth: 06 June 1984
- Nationality: South African
- Address: 5 Dee Dee Brown Drive, Wilro Park, Roodepoort, 1724
- Home Language: Setswana
- Other Languages: Setswana, English, Zulu, North Sotho, South Sotho
- Driver's License: Code 10
- Own Transport: Yes
- Based in: Roodepoort, South Africa
- Primary focus: Fullstack development using Angular and .NET

Education and Certificates

Academic Background

- BSc Information Technology: In progress (1st year at MANCOSA).
- Grade 12 at Moletsane High School with Setswana, English, Biology, Geography, Mathematics, and Physical Science.

Certificates Awarded

- 2019: Azure Fundamentals - AZ-900

Core Technologies

Technologies used across enterprise delivery:

.NET / ASP.NET Core, Angular, Blazor Server, TypeScript, C#, SQL Server, Azure DevOps, Docker, Kubernetes, Entity Framework, MediatR, AutoMapper

Contact Information

- Primary email: ljshole@yahoo.com
- Secondary email: ljshole@gmail.com
- Phone: 071 011 4331
- Alternate: 067 822 1744 / 071 021 0931

Interests

- Sports: Mixed Martial Arts, wrestling, UFC, EFC, and One Championship.
- Hobbies: Playing video games, especially King of Fighters and Call of Duty.
- Downtime: Watching movies and series.

WORK EXPERIENCE

Technical Lead - Consulting at Life Healthcare

Tata Consultancy Services | 10 March 2026 - Current

Technical Lead role responsible for technical direction and development of the Bill Funder application

Highlights

- Leading the technical direction of the Bill Funder application.
- Documenting and creating technical designs
- Implementing backend and frontend features
- Maintaining high code quality through code reviews
- Delegating tasks to team members ensuring maximum productivity for the project

Technologies

NET API, C#, HTML, CSS, SQL Server Management Studio, Azure DevOps, LINQ, Angular, TypeScript, Angular Material, Docker, Azure Container Apps, Azure Service Bus, Git, Visual Studio 2026, Virtual Desktop Infrastructure (VDI)

Senior Fullstack Developer / Lead Frontend Developer (Angular)

DeArx Services | May 2025 - 07 February 2026

Contracting across ABSA CIB and Gilbarco / AFS, delivering enterprise lending and fleet-management software as a senior product engineer and full-stack developer.

Highlights

- Upgrading an Angular 8 application to Angular 20.
- Adding new features to a fleet management platform for vehicles and related equipment.
- Building corporate lending applications for SME financial aid workflows.

Technologies

Angular, ASP.NET Core API, TypeScript, Entity Framework, Material Design, MediatR, AutoMapper, NUnit, PostgreSQL, Docker, Terraform, Azure DevOps, DevExtreme

Reason for leaving: Concluded contract and project requirements.

Senior Full Stack Developer

MiPrint Consulting / Alexander Forbes | March 2025 - May 2025

Joined Alexander Forbes on a contract role before the project was placed on hold and the team received notice of termination.

Technologies

Enterprise delivery, Stakeholder collaboration, Full-stack development

Technical Lead Developer

Cryptograph Technologies / RMB | June 2024 - December 2024

Led delivery of regulatory and metadata platforms used to generate SARB reports and align data from multiple sources to common business terminology.

Highlights

- Implemented RegCtrl, a Blazor Server reporting platform for regulatory requirements.
- Built MetaData, a Blazor Server application for dataset mapping and terminology normalization.

Technologies

Blazor Server, C#, SQL Server, Docker, OpenShift, Radzen UI, Flex Monster, Jira, Bitbucket, Git

Reason for leaving: Project cancelled due to budget constraints.

Senior .NET Developer

Investec / CyberPro Consulting | January 2021 - May 2024

Delivered client onboarding, client maintenance, relationship-linking, portfolio visibility, securitisation account management, and Azure Function integration work inside the Client, Finance and Tax domain.

Highlights

- Contributed to Client Management, Same Entity Linking, Star Link, SecuritEase, and Client Channel API.
- Worked across legacy and modern stacks, from Silverlight and WCF through .NET Core 6 and Angular.

Technologies

C#, .NET Framework 4.5, .NET Core 3.1 / 6, Entity Framework Core, SQL Server 2019, T-SQL, WCF, ASP.NET MVC 5, Angular, TypeScript, Azure Functions, MediatR, AutoMapper, NUnit, xUnit, Moq, NSubstitute, Azure DevOps, Bicep, YAML

Reason for leaving: Wanted more growth and broader technical exposure.

Senior .NET Developer

Dynamic Visual Technologies | September 2016 - December 2020

Worked across fintech, banking, and payment products for Standard Bank, dotModus, and DVT clients, covering backend APIs, Angular frontends, reporting workflows, and township trade enablement.

Highlights

- Built features for Thrive, including invoice integration for township traders and suppliers.
- Delivered risk-management and credit-resolution systems inside CIB.
- Led front-end delivery at dotModus for the wax'd merchant and admin portals.
- Built Standard Bank internal platforms including User Management, Financials, and Retail PMT.

Technologies

C#, .NET Core 2.0 / 2.2, Angular 7, AngularJS, TypeScript, JavaScript, Bootstrap, UnderscoreJS, jQuery, Entity Framework / EF Core, SQL Server, Azure, Docker, Kubernetes, Jenkins, Octopus, HangFire, EPPlus, Material Design, ChartJS

Reason for leaving: Pursued stronger financial growth in line with family responsibilities.

System Developer

Oaksure Financial Services | September 2015 - September 2016

Worked as a one-person development team delivering MyGenius, a web-based lead management platform with automated reporting and third-party integrations.

Highlights

- Integrated with collection houses, telecommunications systems, and bulk SMS suppliers.
- Delivered both application features and supporting Windows Services.

Technologies

C#, ASP.NET MVC 5, KnockoutJS, jQuery, HTML5, CSS3, Bootstrap, Entity Framework 6, LINQ, MS SQL Server

Reason for leaving: Wanted the growth that comes from learning inside a stronger collaborative engineering team.

.NET Developer

Nihilent Technologies / Life Health Care | April 2015 - August 2015

Supported and enhanced a hospital management WPF application, including data fixes, production support, and new business requirements.

Technologies

C#, WPF, MS SQL Server, Visual Studio

Reason for leaving: Wanted to move into modern web technologies and team-based application development.

.NET Developer

Shole IT Solutions | July 2014 - March 2015

Consulted with clients, translated business requirements into applications, tested and implemented solutions, and applied agile delivery practices.

Technologies

HTML, CSS, JavaScript, C#, ASP.NET MVC, ASP.NET WebForms, ADO.NET, jQuery, KnockoutJS, MS SQL Server

Reason for leaving: Needed deeper corporate exposure and more focused responsibilities.

Software Developer / Project Manager

Creative Mode Designs | July 2013 - June 2014

Gathered client requirements, designed interfaces, managed projects, and built applications using agile delivery methods.

Technologies

HTML, CSS, JavaScript, PHP, jQuery

Reason for leaving: Business partnership did not work out.

Web Developer

Shole IT Solutions | October 2009 - February 2013

Designed and coded websites, and also produced client-facing graphic design work such as logos, brochures, and banners.

Technologies

HTML, CSS, JavaScript, PHP, jQuery

Reason for leaving: Moved into the corporate environment for broader exposure.

Trainee Electronic Technician

Tenova Pyromet | September 2005 - July 2006

Early engineering experience that reinforced a long-term shift toward software and information technology.

Technologies

Electronic systems, Technical support, Engineering fundamentals
